▷ **Sirkin, Alec**
NYU ID: N19233633
Username:　aws4934
Password:　r*i%z3H-

- For shell access from outside Courant, use a secure shell client to log into `access.cims.nyu.edu`. On Unix, this is `ssh`. For Windows machines and Macs, a list of secure clients can be found at:

  http://cims.nyu.edu/u/ssh

  Note: You will also have to set up MFA to in order ssh in. Instructions on how to do that can be found at:

  https://www.nyu.edu/life/information-technology/getting-started/
  netid-and-password/mfa.html

- If you want to change your password, you must do it on a Solaris or Linux computer, by running `passwd`. You can access these systems by using a secure shell client (described below as well as on our website) to login to `access.cims.nyu.edu` (a Linux computer). Your account and new password will then be valid on our Solaris, Linux, Mac, and Windows network computers.

- You can see your account information as well as your print and disk quotas on the portal:

  http://cims.nyu.edu/u/portal

- Mail to this account will be forwarded to your NYU Home account (`https://globalhome.nyu.edu`).

- Please visit `http://cims.nyu.edu/systems` for more information.

- In case of problems, please send email to `helpdesk@cims.nyu.edu`.
